

# SUSTAINABILITY CHAMPIONS

## Science Policy Network - Detroit

SciPol Detroit advocates for science and evidence-based policies, provide career development opportunities in science policy, encourage community efficacy, and bridge the gap between scientists, lawmakers, and the lay public. They are an amazing group of students who will be going to Lansing in March to advocate for science-based policy reform! Three areas they will be focusing on are MI Senate Bill 26 (environmental justice and air pollution), MI Senate Bill 31 (increase lead testing in children), and MI Senate Bill 27 (an amendment to a bill that will require insurance companies to cover mental health services). Find out more [here](#) on their website.
